TITLE VII

IMPORT DUTY AND TAX

CHAPTER 1

BASIS OF VALUATION

SEC. 700. Sequential Application of Valuation Methods. — Imported
goods shall be valued in accordance with the provisions of Section 701
whenever the conditions prescribed therein are fulfilled.

Where the customs value cannot be determined under the provisions of
Section 701, it is to be determined by proceeding sequentially through the
succeeding Sections to the first such Section under which the customs value can
be determined, except as provided in Section 704, it is only when the customs
value cannot be determined under the provisions of a particular section that the
provisions of the next section in the sequence can be used.

If the importer does not request that the order of Sections 704 and 705 be
reversed, the normal order of the sequence is to be followed. If the importer so
request but it is impossible to determine the customs value under Section 705,
the customs value shall be determined under Section 704.

When the customs value cannot be determined under Sections 701
through 705, it may be determined under Section 706.

SEC. 701. Transaction Value System—Method One. — The transaction
value shall be the price actually paid or payable for the goods when sold for
export to the Philippines adjusted in accordance with the provisions of this
Section: Provided, That:

(a) There are no restrictions as to the disposition or use of the goods by
the buyer other than restrictions which:

(i) are imposed or required by law or by Philippine authorities;

(ii) limit the geographical area in which the goods may be resold; or

(iii) do not substantially affect the value of the goods;

(b) The sale or price is not subject to some condition or consideration for
which a value cannot be determined with respect to the goods being valued;

(c) The buyer and the seller are not related, or where the buyer and seller
are related, that the transaction value is acceptable for customs purposes under
the provisions hereof.

For purposes of this Act, persons shall be deemed related only if:

(i) they are officers or directors of one another’s business;

(ii) they are legally recognized partners in business;

(iii) there exists an employer-employee relationship between them;

(iv) any person directly or indirectly owns, controls or holds five percent
(5%) or more of the outstanding voting stock or shares of both seller and buyer;
(v) one of them directly or indirectly controls the other;
(vi) both of them are directly or indirectly controlled by a third person;
(vii) together they directly or indirectly control a third person; or
(viii) they are members of the same family, including those related by
affinity or consanguinity up to the fourth civil degree.

Persons who are associated in business with one another in that one is
the sole agent, sole distributor or sole concessionaire, however described, of the
other shall be deemed to be related for the purposes of this Act if they fall within
any of the eight (8) cases cited in the preceding paragraph.

In a sale between related persons, the transaction value shall be accepted
as basis for customs valuation whenever the importer demonstrates that such
value closely approximates one of the following occurring at or about the same
time:

(a) the transaction value in sales to unrelated buyers of identical or similar
goods for export to the same country of importation;
(b) the customs value of identical or similar goods as determined under
provisions of Section 704; or
(c) the customs value of identical or similar goods are determined under
the provisions of Section 705.

In determining the transaction value, the following shall be added to the
price actually paid or payable for the imported goods:

1 To the extent that they are incurred by the buyer but are not included
in the price actually paid or payable for the imported goods:
(a) commissions and brokerage fees except buying commissions;
(b) cost of containers;
(c) cost of packing, whether for labor or materials;
(d) value, apportioned as appropriate, of the following goods and services:
materials, components, parts and similar items incorporated in the imported
goods; tools; dies; moulds and similar items used in the production of imported
goods; materials consumed in the production of the imported goods; and
engineering, development, artwork, design work and plans and sketches
undertaken elsewhere than in the Philippines and necessary for the production of
imported goods, where such goods and services are supplied directly or
indirectly by the buyer free of charge or at a reduced cost for use in connection
with the production and sale for export of the imported goods; and
(e) amount of royalties and license fees related to the goods being valued
that the buyer must pay either directly or indirectly, as a condition of sale of the
goods to the buyer.
(2) value of any part of the proceeds of any subsequent resale, disposal or
use of the imported goods that accrues directly or indirectly to the seller;
(3) cost of transport of the imported goods from the port of exportation to
the port of entry in the Philippines;
(4) loading, unloading and handling charges associated with the transport
of the imported goods from the country of exportation to the port of entry in the
Philippines; and
(5) cost of insurance.
All additions to the price actually paid or payable shall be made only on
the basis of objective and quantifiable data.
SEC. 702. Transaction Value of Identical Goods – Method Two. –
Where the dutiable value cannot be determined under method one, the dutiable
value shall be the transaction value of identical goods sold for export to the
Philippines and exported at or about the same time as the goods being valued.
"Identical goods" mean goods which are the same in all respects, including
physical characteristics, quality and reputation. Minor differences in appearances
shall not preclude goods otherwise conforming to the definition from being
regarded as identical.
If, in applying this section, more than one transaction value of identical goods are found, the lowest such value shall be used to determine the customs value.

SEC. 703. Transaction Value of Similar Goods – Method Three. – Where the dutiable value cannot be determined under the preceding method, the dutiable value shall be the transaction value of similar goods sold for export to the Philippines and exported at or about the same time as the goods being valued. "Similar goods" mean goods which, although not alike in all respects, have like characteristics and similar component materials which enable them to perform the same functions and to be commercially interchangeable. The quality of the goods, its reputation and the existence of a trademark shall be among the factors to be considered in determining whether goods are similar.

If, in applying this Section, more than one transaction value of identical goods are found, the lowest such value shall be used to determine the customs value.

SEC. 704. Deductive Value – Method Four. – Where the dutiable value cannot be determined under the preceding method, the dutiable value shall be the deductive value unless otherwise requested by the importer as provided in Section 700. The deductive value which shall be based on the unit price at which the imported goods or identical or similar imported goods are sold in the Philippines, in the same condition as when imported, in the greatest aggregate quantity, at or about the time of the importation of the goods being valued, to persons not related to the persons from whom they buy such goods, subject to deductions for the following:

(1) either the commissions usually paid or agreed to be paid or the additions usually made for profit and general expenses in connection with sales in such country of imported goods of the same class or kind;

(2) the usual costs of transport and insurance and associated costs incurred within the Philippines;
(3) where appropriate, the costs of: (i) transport of the imported goods
from the port of exportation to the port of entry in the Philippines; (ii) loading,
unloading and handling charges associated with the transport of the imported
goods from the country of exportation to the port of entry in the Philippines; and
(iii) insurance; and

(4) the customs duties and other national taxes payable in the Philippines
by reason of the importation or sale of the goods.

If neither the imported goods nor identical nor similar imported goods are
sold at or about the time of importation of the goods being valued in the
Philippines in the conditions they were imported, the customs value shall, subject
to the conditions set forth in the preceding paragraph, be based on the unit price
at which the imported goods or identical or similar imported goods sold in the
Philippines in the condition they were imported and at the earliest date after the
importation of the goods being valued, but before the expiration of ninety (90)
days after such importation.

If neither the imported goods nor identical nor similar imported goods are
sold in the Philippines in the condition as imported, then, if the importer so
requests, the dutiable value shall be based on the unit price at which the
imported goods, after further processing, are sold in the greatest aggregate
quantity to persons in the Philippines who are not related to the persons from
whom they buy such goods, subject to allowance for the value added by such
processing and deductions provided under subsections (1), (2), (3) and (4)
hereof.

SEC. 705. Computed Value – Method Five. – Where the dutiable
value cannot be determined under the preceding method, the dutiable value shall
be the computed value of the sum of:

(1) the cost or the value of materials and fabrication or other processing
employed in producing the imported goods;
(2) the amount for profit and general expenses equal to that usually reflected in the sale of goods of the same class or kind as the goods being valued which are made by producers in the country of exportation for export to the Philippines;

(3) the freight, insurance fees and other transportation expenses for the importation of the goods;

(4) any assist, if its value is not included under paragraph (1) hereof; and

(5) the cost of containers and packing, if their values are not included under paragraph (1) hereof.

The Bureau shall not require or compel any person not residing in the Philippines to produce for examination, or to allow access to, any account or other record for the purpose of determining a computed value. However, information supplied by the producer of the goods for the purposes of determining the customs value may be verified in another country with the agreement of the producer and provided said producer will give sufficient advance notice to the government of the country in question and the latter does not object to the investigation.

SEC. 706. **Fallback Value – Method Six.** – If the dutiable value cannot be determined under the preceding methods described above, it shall be determined by using other reasonable means and on the basis of data available in the Philippines. If the importer so requests, the importer shall be informed in writing of the dutiable value determined under method six and the method used to determine such value.

No dutiable value shall be determined under method six on the basis of:

(1) the selling price in the Philippines of goods produced in the Philippines;

(2) a system that provides for the acceptance for customs purposes of the higher of two alternative values;

(3) the price of goods in the domestic market of the country of exportation;
(4) the cost of production, other than computed values, that have been
determined for identical or similar goods in accordance with method five hereof;
(5) the price of goods for export to a country other than the Philippines;
(6) minimum customs values; or
(7) arbitrary or fictitious values.

SEC. 707. Ascertainment of the Accuracy of the Declared Value. -
Nothing in this section shall be construed as restricting or calling into question
the right of the Bureau to ascertain the truth or accuracy of any statement,
document or declaration presented for customs valuation purposes. When a
declaration has been presented and when the Bureau has reason to doubt the
truth or accuracy of the particulars or of documents produced in support of such
declaration, it may ask the importer to provide further explanation, including
documents or other evidence, that the declared value represents the total
amount actually paid or payable for the imported goods, adjusted in accordance
with the provisions of Section 701.

If, after receiving further information, or in the absence of a response, the
Bureau still has reasonable doubts about the truth or accuracy of the declared
value, it may deem that the customs value of the imported goods cannot be
determined under method one, without prejudice to an importer's right to appeal
pursuant to Section 1101 of this Act. Before taking a final decision, the District
Officer shall communicate to the importer, in writing if requested, the grounds for
doubting the truth or accuracy of the particulars or documents produced and give
the importer a reasonable opportunity to respond. When a final decision is made,
the Bureau shall communicate its decision and the grounds therefor in writing.

SEC. 708. Exchange Rate.—For the assessment and collection of import
duty upon imported goods and for other purposes, the value and prices thereof
quoted in foreign currency shall be converted into the currency of the Philippines
at the current rate of exchange or value specified or published, from time to time,
by the Bangko Sentral ng Pilipinas (BSP).

(ix) such goods were produced more than twenty (20) years prior to their importation into the Philippines; or
(x) such goods cannot be marked after importation except at an expense which is economically prohibitive, and the failure to mark the goods before importation was not due to any purpose of the importer, producer, seller or shipper to avoid compliance with this section.

custody for inspection, examination, or assessment shall be released until such
goods or their containers shall have been marked in accordance with the
requirements of this Section and until the amount of duty estimated to be payable
under subsection (c) of this Section shall have been deposited.

(e) The failure or refusal of the owner or importer to mark the goods as

re-exportation or re-importation of the goods.

As an alternative to re-exportation or re-importation, the goods may be
expressly abandoned or destroyed or rendered commercially valueless under

**TITLE X**

**POST CLEARANCE AUDIT**

SEC. 1000. **Audit and Examination of Records.** — Within three (3) years from the date of final payment of duties and taxes or customs clearance, as the case may be, the Bureau may conduct an audit examination, inspection, verification, and investigation of records pertaining to any goods declaration, which shall include statements, declarations, documents, and electronically generated or machine readable data, for the purpose of ascertaining the correctness of the goods declaration and determining the liability of the importer for duties, taxes, and other charges, including any fine or penalty, to ensure compliance with this Act.

SEC. 1001. **Scope of the Audit.** — The audit of importers shall be conducted when firms are selected by a computer-aided risk management system, the parameters of which are to be based on objective and quantifiable

Unless otherwise provided herein or in other provisions of law, the Bureau
may, in case of disobedience, invoke the aid of the proper regional trial court
within whose jurisdiction the matter falls. The court may punish contumacy or
refusal as contempt. In addition, the fact that the importer or customs broker

during the conduct of a post clearance audit shall create a presumption of
inaccuracy in the transaction value declared for their imported goods and
constitute grounds for the bureau to conduct a re-assessment of such goods.

In addition, the imposition of the appropriate criminal sanctions provided
under this Act and other administrative sanctions may be concurrently invoked
against contumacious importers, including the suspension of the delivery or release of their imported goods.

All customs brokers and all other parties engaged in customs clearance and processing are required to keep at principal place of business, in the manner prescribed by regulations to be issued by the Commissioner and for a period of three (3) years from the date of filing of the goods declaration, copies of the abovementioned records covering the transactions handled.

(c) take such testimony of the person concerned, under oath, as may be relevant or material to such inquiry; or

(d) obtain information from banks or other financial institutions on commercial documents and records pertaining specifically to payments relevant to import transaction.

The provisions of the foregoing paragraphs notwithstanding, nothing in this Section shall be construed as granting the Commissioner the authority to inquire into bank deposits of persons or entities mentioned in this Title.

SEC. 1005. Failure to Pay Correct Duties and Taxes on Imported Goods. – Any person who, after being subjected to post clearance audit and examination as provided in Section 1000, is found to have incurred deficiencies in duties and taxes paid for imported goods, shall be penalized according to two (2) degrees of culpability subject to any mitigating, aggravating, or extraordinary factors that are clearly established by available evidence as described hereunder:

Within forty-eight (48) hours or, in the case of perishable goods, within twenty-four (24) hours from inspection, the alerting officer shall recommend the issuance of a warrant of seizure and detention or the suspension of processing of the release of the goods by the District Officer concerned.
Derogatory information shall indicate the violations and other necessary specifics thereof. For this purpose, the following shall not be considered derogatory information:

(d) General allegations of misdeclaration in the entry without indicating the suspected actual contents thereof; and general allegations of importations contrary to law without indicating the specific law or rule to be violated.

No alert order shall be issued on account of allegations of undervaluation unless said undervaluation is caused by the submission to customs of forged or spurious invoice or other commercial documents.

An alert order may be issued only after lodgement of the goods declaration and prior to the release of goods from customs custody. Under no circumstances shall the suspension of the processing of goods declaration be allowed except through an alert order issued by an authorized customs officer.

the possession or custody of or subject to the control of persons who shall
receive, conceal, buy, sell, or transport the same, or aid in any such acts, with

importation or exportation contrary to law.

of a warrant of seizure.

may, with prior notice to the Commissioner and upon motion by the importer or
consignee, allow the release of seized goods under cash bond or sufficient
security equivalent to the landed cost of the goods and any fine, expenses, and
costs which may be adjudged, subject to the following:
(1) There is no prima facie evidence of fraud in the importation of the goods;

(2) The goods shall not be released when the importation is prohibited by law; and

Sec. 1118. Sale of Perishable Goods during Forfeiture Proceedings. — upon motion of the importer of the perishable goods, the goods may be sold at a public auction during the pendency of the forfeiture proceedings. SEC. 1122. Seizure of Vessel or Aircraft for Delinquency of Owner or Officer. – When the owner, agent, master, pilot in command or other responsible officer of any vessel or aircraft becomes liable for any violation of this Act, the vessel or aircraft may be seized and subjected to forfeiture proceedings for the settlement of any fine or penalty for which such person is liable. In determining whether or not to seize a vessel or aircraft, the Bureau shall take into account the amount of fine or penalty in relation to the commercial impact that may be caused to international trade by the seizure or detention as well as the value of the vessel or aircraft.

No settlement by payment of fine shall be allowed when there is fraud or when the discrepancy in duty and tax to be paid between what is determined and what is declared amounts to more than thirty percent (30%).

In case of settlement by payment of fine, the owner, importer, exporter, or consignee or agent shall offer to pay a fine equivalent to thirty percent (30%) of the landed cost of the seized goods. In case of settlement by redemption, the owner, importer, exporter, or consignee or agent shall offer to pay the redeemed

Upon payment of the fine or payment of the redeemed value, the goods
shall be released and all liabilities which may attach to the goods shall be
discharged without prejudice to the filing of administrative or criminal case.

forfeited goods shall not be allowed when there is fraud, or where the importation
is prohibited or the release of the goods is contrary to law.

(b) by civil or criminal action.

Either or both of these remedies may be pursued at the discretion of the bureau: Provided, That the remedies of distraint and levy shall not be allowed when the amount of duties and taxes involved is not more than Ten Thousand Pesos (P10,000.00).

The Bureau shall advance the amounts needed to defray costs of collection by means of civil or criminal action, including the preservation or transportation of personal property distrained and the advertisement and sale thereof, as well as of real property and improvements thereon.

SEC. 1133. Constructive Distraint of the Property. — To safeguard the interest of the government, the Commissioner may place under constructive distraint the property of a delinquent importer who, in the opinion of the commissioner, is retiring from any business subject to duty and tax, or is intending to leave the Philippines, or to remove the property therefrom, or to hide
or conceal the property, or to perform any act tending to obstruct the proceedings for collecting the duty and tax due, or which may be due.

The constructive distraint of personal property shall be effected by requiring the importer or any person in possession or control of such property to sign a receipt covering the property, to obligate to preserve the distrained property on the state and condition at the time of the government's seizure of the same, and not to dispose of the same in any manner whatsoever, without the express authority of the Commissioner.

In case the importer or the person in possession and control of the property sought to be placed under constructive distraint refuses or fails to sign the receipt herein referred to, the Customs Officer effecting the constructive distraint shall proceed to prepare a list of such property and, in the presence of two (2) witnesses, leave a copy thereof in the premises where the property distrained is located, after which the said property shall be deemed to have been placed under constructive distraint.

(b) Levy on Real Property. — After the expiration of the period within which to pay the duty, tax, and other charges as prescribed in this Section, real property may be levied upon, before, simultaneously, or after the distraint of
personal property belonging to the importer. To this end, the Commissioner or the duly authorized representative shall prepare a duly authenticated certificate showing the name of the importer and the amounts of the duty and tax and penalty due. The certificate shall operate with the force of a legal execution throughout the Philippines.

The levy shall be effected by writing upon the certificate a description of the property on which levy is made. At the same time, written notice of the levy shall be mailed to or served upon the Register of Deeds for the province or city where the property is located and upon the importer, or if the latter is not in the Philippines, upon the agent or the manager of the business from which the liability arose, or if there be none, to the occupant of the property in question.

In case the warrant of levy on real property is not issued before or simultaneously with the warrant of distraint on personal property, and the personal property of the importer is not sufficient to satisfy the duty and tax due, the Commissioner or a duly authorized representative shall, within thirty (30) days after execution of the distraint, proceed with the levy on the real property of the importer.

Within ten (10) days after receipt of the warrant, a report on any levy shall be submitted by the levying officer to the Commissioner: Provided, That the Commissioner may lift such warrants of levy issued, subject to the rules and regulations promulgated pursuant this Act.

the owner or owners to cruise or commit hostilities upon the subjects, citizens, or
property of any foreign principality or state, or of any colony, District, or people
with whom the Philippines is at peace, until the decision of the President of the

If dependable facilities for giving notice are not available before departure, the use of any radio equipment shall be appropriate as long as it will result in the giving of adequate and timely notice of the aircraft’s approach, otherwise landing shall be made at a place equipped with navigational facilities. Misdeclaration, Misclassification, Undervaluation in Goods Declaration. — Misdeclaration as to quantity, quality, description, weight, or measurement of the goods, or misclassification through insufficient or wrong description of the goods or used of wrong tariff heading resulting in a discrepancy in duty and tax to be paid between what is legally determined upon assessment and what is declared, shall be subject to a surcharge equivalent to two hundred fifty percent (250%) of the duty and tax due. No surcharge shall be imposed when the discrepancy in duty is less than ten percent (10%), or when the declared tariff heading is rejected in a formal customs dispute settlement process involving difficult or highly technical question of tariff classification, or when the tariff classification declaration relied on an official government ruling.

Should increases be made without such authority, the NEDA shall immediately notify the President who shall allow the importation of competing products in such quantities as to protect the public from the unauthorized increase in wholesale prices.

(f) This Section shall not prevent the effectivity of any executive agreement or any future preferential trade agreement with any foreign country.

(g) The NEDA and the Commission shall promulgate such reasonable procedures, rules and regulations as they may deem necessary to execute their respective functions under this Section.
CHAPTER 3

TARIFF NOMENCLATURE AND RATE OF DUTY

SEC. 1610. General Rules for the Interpretation (GRI). – The classification of goods and its tariff nomenclature as provided pursuant to this Act shall be governed by the following principles:

(1) The titles of Sections, Chapters and Sub-Chapters are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings and any relative Section or Chapter Notes and, provided such headings or Notes do not otherwise require, according to the following provisions:

(2) (a) Any reference in a heading to an article shall be taken to include a reference to that article incomplete or unfinished: Provided, That, as presented, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also be taken to include a reference to that article complete or finished (or falling to be classified as complete or finished by virtue of this Rule), presented unassembled or disassembled.

(b) Any reference in a heading to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to goods of a given material or substance shall be taken to include a reference to goods consisting wholly or partly of such material or substance. The classification of goods consisting of more than one material or substance shall be according to the principles of Rule 3.

(3) When by application of Rule 2(b) or for any other reason, goods are, prima facie, classifiable under two or more headings, classification shall be effected as follows:

(a) The heading which provides the most specific description shall be preferred to headings providing a more general description. However, when two or more headings each refer to part only of the materials or
substances contained in mixed or composite goods or to part only of
the items in a set put up for retail sale, those headings are to be
regarded as equally specific in relation to those goods, even if one of
them gives a more complete or precise description of the goods.

(b) Mixtures, composite goods consisting of different materials or made up
of different components, and goods put up in sets for retail sale, which
cannot be classified by reference to 3(a), shall be classified as if they
consisted of their essential character, insofar as this criterion is
applicable.

(c) When goods cannot be classified by reference to 3(a) or 3(b), they
shall be classified under the heading which occurs last in numerical
order among those which equally merit consideration;

(4) Goods which cannot be classified in accordance with the above Rules
shall be classified under the heading appropriate to the goods to which they are
most akin.

(5) In addition to the foregoing provisions, the following Rules shall apply
in respect of the goods referred to therein:

(a) Camera cases, musical instrument cases, gun cases, drawing
instrument cases, necklace cases and similar containers, specially
shaped or fitted to contain a specific article or set of articles, suitable
for long-term use and presented with the articles for which they are
intended, shall be classified with such articles when of a kind normally
sold therewith. The Rule does not, however, apply to containers which
give the whole its essential character;

(b) Subject to the provisions of Rule 5(a), packing materials and packing
containers presented with the goods therein shall be classified with the
goods if they are of a kind normally used for packing such goods.
However, this provision does not apply when such packing materials or
packing containers are clearly suitable for repetitive use.
(6) For legal purposes, the classification of goods in the subheadings of a heading shall be determined according to the terms of those subheadings and any related Subheading Notes and, mutatis mutandis, to the above Rules, on the understanding that only subheadings at the same level are comparable. For the purposes of the Rule, the relative Section and Chapter Notes also apply, unless the context otherwise requires.

SEC. 1611. Tariff Nomenclature and Rates of Import Duty. — The provisions of Section 104 of Presidential Decree No. 1464, otherwise known as the Tariff and Customs Code of the Philippines of 1978, as amended, specifically providing for the tariff sections, chapters, headings and subheadings and the rates of import duty, shall still apply. There shall be levied, collected and paid upon all imported goods the rates of duty indicated thereon except as otherwise specifically provided for in this Act: Provided, That the maximum rate shall not exceed one hundred percent (100%) ad valorem.

a. The rates of duty provided or subsequently fixed pursuant to Sections 1608 and 1609 of this Act shall be subject to periodic investigation by the Tariff Commission and may be revised by the President, upon the recommendation of the NEDA.

b. The rates of duty provided shall apply to all products, whether imported directly or indirectly, of all foreign countries, which do not discriminate against Philippine export products. An additional one hundred percent (100%) across-the-board duty shall be levied on the products of any foreign country which discriminates against Philippine export products.

SEC. 1612. Tariff Nomenclature and Rates of Export Duty. — The provisions of Section 514 of Presidential Decree No. 1464, otherwise known as the Tariff and Customs Code of 1978, as amended, specifically providing for the export products subject to duty and rates, shall still apply.
