- Moving in the right direction but still have much work ahead of us
- Public-Private Collaboration works
- Biggest challenges – Institutionalization and the permanence / irreversibility of reform

PUBLIC  **PRIVATE**

COLLABORATION

We learn from each other!

- Individual and national sense of discipline (**Filipino Time, do more with less mentality**)
- Positive attitude and constant innovativeness (**Kaya natin**)
- Treating crisis as opportunities and oneself as part of the solution and never part of the problem (**competitive spirit**)
- Quality as a daily lifestyle (**Di pwede ang pwede na**)
- Strong Sense of Patronage (**Buy Filipino goods/services**)
- Strong partnership and networking with stakeholders through program ownership, **get involved** (reforms/policy issues)

(Just in case you believe that great social problems and competitiveness agenda are beyond your scope, consider this story)

God said to me :

Your task is to build a better world...

I answered:

***How can I do that? The world is such a large,
vast place, so complicated now,
and I am so small and useless.***

There's nothing I can do.

But God in his great wisdom said:

Just build a better you.

-Anonymous

Competitiveness begins with you and Me

EACH ONE has a stake in giving his/her share of contribution.

If we don't do our part nor participate on this cause,
we don't have the right to complain.
